

SEPTEMBER GRAND ROUNDS

Ethics, Bias and AI in Medicine: More than Just Data

Friday, September 18, 2020 | 12:00 – 1:00pm
via Zoom – [click here for Zoom details](#)

SPEAKER:

Matthew DeCamp, MD, PhD

Associate Professor

Division of General Internal Medicine and
Center for Bioethics and Humanities

School of Medicine

University of Colorado Anschutz Medical Campus

PRESENTATION SUMMARY:

Widespread heralds of an artificial intelligence (AI) revolution in medicine generate both hopes and fears. Amidst recent high-profile cases that reveal profoundly biased data sets and AI algorithms, how can we avoid reifying racism when AI is designed and implemented? Drawing from cases across the translational science spectrum, this presentation will describe how bias is about far more than data sets and algorithms - and what we must do about it.
